

Cgate at Viscom Dusseldorf 2005

## CGATE PRODUCT RANGE EXPANDED

Thanks to the excellent feedback from our customers, we have improved and expanded our portfolio of products. The **solvent media** range now boasts several grades designed to meet individual requirements, as does our best selling One Way Vision material.

The selection of media suited to **dye/pigment** printers has recently as been extended and now includes additional materials for special projects.

The popularity of Cgate **display products** has continued to grow. To meet customer demand we have added several new roll-up models as well as a selection of clipping solutions. Snap frames and A-frames are available in a variety of sizes and profiles and can also be made to order in special sizes, backings and finishes.

Our customers and sign designers are invited to contact us for more details.

Ultra slim **Aluminum and Crystal** light boxes are now popular with many customers. Companies that have traditionally supplied only media are now finding that Cgate light boxes compliment their business and add value for customers.

We have added Polystyrene Foam Boards to our range of **rigid materials**. Finishes include paper, for applications such as posters and flat bed printing or Polystyrene for screen printing. An additional finish with paper on one side and glue on the other is also available.

Polystyrene Foam Board sheets can be ordered to any size at widths of up to 1.22m.

## MAINZ SALES OFFICE NOW OPEN

Cgate is pleased to announce that the German sales office, located in Mainz, opened for business in September 2005. This is excellent news for our German distributors who can now deal with a local contact. For details see the back of this newsletter.

## PRODUCT OF THE MONTH - FLAGS

There are unique benefits to producing bespoke projects in China. More companies are seeking to take advantage of both the large scale hand-finishing facilities and local expertise for the production of specific high quality items.

Flags are just such a product. High quality silk screen printing on a variety of textile substrates or silks can be produced at very competitive rates, including finishing, packing and shipping.

For more details, please contact our sales offices directly.

## CGATE AT FESPA DIGITAL

Cgate has chosen to exhibit this year at Fespa Digital in Amsterdam, from 16th -18th May. We invite all our customers to come and talk to us and discuss their current requirements and future plans.

THE CGATE CUSTOMER COLUMN

## SYTECH

SUPPLIERS TO THE SIGNAGE AND GRAPHICS INDUSTRY

Established by Malcolm Groger with the help of John Tellis in 2000, Sytech Supplies had its humble beginnings out of small premises in Durban, South Africa. Since then, Sytech has become one of the largest suppliers of signage consumables and equipment in the country. Sytech are sole agents for LG and Metamark. Other brands include CGATE, Maintape, Videoflex and Omics. With the shift in the industry from vinyl cutting to digital printing, Sytech has enjoyed a good transition with the technology, selling brands like Graphtec, Asbru, Refine, Mimaki and Matan together with software from Scanvec, Easysign and Wasatch.
